

# Pharmicus Hub

Supporting GP Practices remotely  
with medication related work.

We are a GP federation  
committed to providing  
practices with a flexible,  
tailored service of  
Pharmacists and  
Pharmacy Technicians to  
support remotely with all  
medication related work.

## Documents

*Our team reconcile documents (discharge summaries, clinic letters, shared care requests etc) with the patient medication record and resolve medication queries related to the document.*

## Prescription Requests

*We action medication requests and queries from the patient themselves, local pharmacies or the GP, to reduce workload for your practice.*

## Tailored approach

*Bespoke service tailored to your practice preferences and processes*

## How we can help your practice

- *Manage medication queries to reduce your workload.*
- *Ensure appropriateness and safety of requests before reaching the prescriber.*
- *Regular reviews with our dedicated team to tailor to your needs.*
- *Short term service available to cover sickness and maternity leave.*
- *Rapid start up to help in times of pressure.*

**Competitive pricing with a personalised service**

## Get in touch

If you would like more information about our service please get in touch with our lead pharmacist Sandy.
